Hi Lauren,

For your awareness, we are taking these temporary measures in response to your reasonable accommodation request pertaining to possible mold in your cube area. Your new cube is located in 4400 near Keith Day's cube.

Also, facilities will be performing an environmental test in your cube area. As I understand it, the reasonable accommodation office will be requesting specific medical documentation. Thank you.

Best regards,

Good Morning Helen,

Thank you for this acknowledgement. Where in 4400 should I look to find it please? Thanks

Just to let you know your computer has been moved up to 4400 if that makes any difference when you return to work. Hopefully it will improve your working conditions
